

THE BOOK OF THE WINDS:
BÜCHER SALON
2026

Premiered at *Bücher Salon*, *The Book of the Winds* is an independent publication that unfolds the research and narratives of the exhibition *des Windes* into a cohesive, sculptural object. More than a mere record, it breathes as a physical extension of the exhibition—a vessel where the winds, having gathered fragments of history, research and artistic practice across time and space, come to rest upon the page.
